Re: Negotiations Update

Greetings:

On Friday November 1st the UAW Ford Council met in Detroit and approved the UAW Ford Tentative Agreement. Our UAW Brothers and Sisters at Ford Locals are currently voting on this proposed agreement and the deadline for reporting the results is Friday November 15th.

Your UAW FCA Negotiators continue to meet with the company on our outstanding demands. We are making progress and if UAW Ford ratifies, Acting UAW President Rory Gamble and the President's office staff will join us next week and work to finalize the UAW FCA bargaining. While we intend to press forward to reach an agreement it is impossible to forecast how long this will take.

I am grateful for your patience and solidarity as we continue to bargain with the company on your demands. With your support we will negotiate the best agreement possible to meet the needs of the membership.

In solidarity,

Cindy Estrada
Vice President and Director
UAW FCA Department
